

CORCOVADO FOUNDATION

Virtual Library Resource

Protecting Biodiversity Through Knowledge

Thank you for visiting the Corcovado Foundation Virtual Library.

This document is currently being updated as part of our ongoing effort to provide accurate, accessible, and high-quality educational resources for volunteers, researchers, students, educators, conservation professionals, and community leaders.

Our Virtual Library is designed to support:

- Environmental Education
- Ecosystem Restoration
- Sea Turtle Conservation
- National Park Support
- Community Development
- Scientific Research and Monitoring

Through these resources, we aim to share practical knowledge, field experience, and conservation strategies that contribute to the protection of one of the most biologically diverse regions on Earth.

About Corcovado Foundation

Corcovado Foundation works to protect biodiversity, strengthen local communities, and promote sustainable development throughout the Osa Peninsula and surrounding regions of Costa Rica.

Through environmental education, habitat restoration, wildlife conservation, community engagement, and strategic partnerships, we strive to create long-term positive impact for both people and nature.
